Meridian Marine Services

B2B Services — Offshore Logistics & Marine Services

June 2023 | STRICTLY PRIVATE & CONFIDENTIAL

Executive Summary

Meridian Marine Services — B2B Services

Meridian Marine Services ("Meridian" or the "Company") is a leading provider of integrated offshore logistics, vessel chartering, and port services to the Gulf of Mexico energy sector. Founded in 2008 by former Tidewater executives, Meridian operates a fleet of 38 owned and chartered vessels — including platform supply vessels (PSVs), fast crew boats, and anchor handling tugs — serving major E&P operators including Shell, BP, Chevron, and Murphy Oil. The Company has grown through a combination of organic contract wins and 3 strategic fleet acquisitions since 2018, establishing a dominant position in the deepwater Gulf of Mexico sub-market.

Investment Highlights

Six reasons Meridian Marine Services represents a compelling investment

01

Dominant deepwater Gulf of Mexico platform with long-term customer relationships

#2 PSV operator in the Gulf of Mexico by fleet capacity; #1 in shallow-water crew transfer · Average customer relationship of 8.4 years; Shell and BP collectively 41% of LTM revenue · 14 contracts with remaining tenor >18 months, providing high revenue visibility through 2025

02

Modern, fuel-efficient fleet at attractive replacement cost

Average fleet age of 7.2 years vs. Gulf of Mexico industry average of 14.1 years — significant operational advantage · 2022 new-build PSVs (2 vessels, \$48M invested) operating at premium day rates of \$28,500/day · Fleet replacement cost estimated at \$520M+ — acquiring Meridian at \$280M represents a 54% discount to asset value

03

Strong energy sector tailwinds driving utilization and day rate recovery

Gulf of Mexico deepwater rig count at 22 active units — highest since 2015; PSV demand directly correlated · Vessel day rates recovering: PSV spot rates up 38% YoY; Meridian's contracted fleet re-pricing at renewal · IEA projects Gulf deepwater production to grow 12% by 2028; operator capex budgets up 18% YoY in 2023

04

Recurring revenue base with contracted backlog providing visibility

\$285M contract backlog as of March 2023 — 1.5x LTM revenue; 78% under term contracts (avg. 2.3yr remaining) · Cost-plus structure on 6 major contracts protects against fuel cost inflation · Day rate escalation clauses in 11 contracts tied to CPI — natural inflation hedge

05

Vertically integrated shore-base and port operations

Owned shore bases in Fourchon (LA) and Ingleside (TX) — prime deepwater staging locations · Shore-base operations generate \$18M of stable, asset-light revenue independent of vessel utilization · Port Fourchon base has 22-year lease with 2 renewal options — strategic asset with high replacement cost

06

Proven management team with successful M&A track record

CEO Kirk Dolan: 28 years in offshore marine; former COO at Tidewater Inc. (NYSE: TDW) · 3 fleet acquisitions completed 2018–2022 at avg. 5.2x EBITDA (all immediately accretive) · Identified additional bolt-on targets: 2 small Gulf operators, combined ~12 vessels at distressed pricing

Company Overview

History, scale, and operating footprint

Meridian Marine Services ("Meridian" or the "Company") is a leading provider of integrated offshore logistics, vessel chartering, and port services to the Gulf of Mexico energy sector. Founded in 2008 by former Tidewater executives, Meridian operates a fleet of 38 owned and chartered vessels — including platform supply vessels (PSVs), fast crew boats, and anchor handling tugs — serving major E&P operators including Shell, BP, Chevron, and Murphy Oil.

Acquired by Kirk Dorn, ex-Tidewater, who fired first 4 PSVs at post-financial-crisis distressed pricing.
Weather and offshore downturns reduced fleet to 22 vessels, renegotiated charter agreements.
Anchor Marine Asset acquisition (6 AHTs, \$41M). Shore base in Ingleside, TX commissioned.
ATM revenue \$185M, EBITDA \$3M. Revenue \$153M, fleet utilization 92%. Jefferies engaged in sale process — June 2023.

2008201620202023

2012

Shore base established at Port Fourchon, LA — prime deepwater logistics hub. Fleet grows to 14 vessels.

2018

Energy recovery begins. Acquired Gulf Crew Services (8 fast crew boats, \$32M) — first M&A.

2022

2 new-build PSVs delivered (\$48M). Revenue \$153M, fleet utilization 89%. Third acquisition closed.

Clients

Products & Services

Diversified offering with multiple growth vectors

CORE — 52% OF REVENUE

\$22,500–28,500/day

Platform Supply Vessels (PSVs)

18 PSVs ranging 3,000–5,200 DWT; 2 new-builds at premium day rates

Supplies drilling rigs and production platforms with bulk cargo, fuel, and chemicals

Contracted 87% utilization; spot capacity at \$28,500/day current market

CREW TRANSFER — 24% OF REVENUE

\$8,200–11,500/day

Fast Crew Boats (FCBs)

12 crew transfer vessels; 34–48 knot high-speed aluminum hull design

Daily crew rotation for platform workers; critical safety and logistics function

98% utilization rate — essential service with near-zero downtime tolerance

SPECIALTY — 14% OF REVENUE

\$18,000–24,000/day

Anchor Handling Tugs (AHTs)

6 anchor handling and towing vessels; 8,000–12,000 BHP

Rig move and anchor positioning services; high day rates, seasonal demand

Specialist crew with AHTS certification — significant barrier to entry

ASSET-LIGHT — 10% OF REVENUE

Cost-plus / fixed fee

Shore Base & Port Services

Port Fourchon (LA) and Ingleside (TX) shore bases; owned facilities

Cargo staging, fuel bunkering, warehousing, and crew transfer services

22-year lease at Fourchon; \$18M stable, high-margin revenue stream

Market Opportunity

Large and growing addressable market

Global Offshore Marine Services Market

\$28B

Growing with offshore E&P capex recovery; IEA projects 14% CAGR to 2027

US Gulf of Mexico Offshore Services

\$4.8B

Deepwater activity at highest since 2015; rig count 22 and rising

Gulf PSV & Crew Transfer Sub-market

\$1.6B

Meridian's primary TAM; supply-constrained as older vessels retire

Meridian Served Market (contracted clients)

Meridian's direct bidding universe; est. 44% win rate on competitive tenders

Business Model & Unit Economics

Revenue mix and key operating metrics

E&P Operators (Major & Independent) 78%	Shore Base & Port Services 10%	Spot Market & Contractor Charters
~\$145M LTM	~\$18M LTM	~\$22M LTM
Shell, BP, Chevron, Murphy Oil, Talos Energy Term contracts avg. 2.3yr remaining tenor Cost-plus and day-rate structures; CPI escalators on 11 contracts	Asset-light; high-margin cargo and crew staging Port Fourchon and Ingleside TX facilities 22-year lease; capacity available for third-party customers	Opportunistic spot vessel charters at premium rates PSV spot at \$28,500/day — highest in 8 years Managed to maximize utilization without over-committing to spot

Management Team

Experienced leadership with deep sector expertise

Kirk Dolan

K

Chief Executive Officer & Founder

Founder of Meridian (2008). 28 years in offshore marine services. Previously COO at Tidewater Inc. (NYSE: TDW) overseeing Gulf of Mexico and West Africa operations. BS Marine Engineering, Texas A&M. Owns 58% of company equity.

Sandra Reeves

S

Chief Financial Officer

Joined Meridian in 2014. Previously VP Finance at Cal Dive International through its 2015 restructuring; instrumental in recapitalizing Meridian's balance sheet during the 2016 offshore downturn. CPA, MBA from Rice University.

Hector Vargas

H

Chief Operating Officer

20 years in offshore vessel operations. Manages 38-vessel fleet, 820 personnel, and port facilities across Texas and Louisiana. Former Fleet Superintendent at SEACOR Holdings. US Coast Guard Captain's License; STCW certified.

Donna Tran

D

VP Commercial & Business Development

Manages all major E&P client relationships and competitive tender processes. 12-year relationship with Shell — key account representing 24% of LTM revenue. Previously Regional Sales Director at Hornbeck Offshore Services.

Mike Bassett

M

VP Fleet & Technical

Oversees vessel maintenance, classification society compliance, and new-build projects. Led delivery of 2 new PSVs in 2022 — on schedule, \$1.2M under budget. Former Marine Superintendent at Bourbon Offshore. 32 years at sea and ashore.

Carla Simmons

C

VP Human Resources & HSEQ

Manages crewing, training, and health/safety across 820 staff and contractors. Reduced lost-time incident rate from 1.8 to 0.4 per million manhours over 5 years. NEBOSH certified; former HSEQ Director at GulfMark Offshore.
